

Wear Blocks & Buttons

For use in most areas where abrasive wear is causing machine down time and loss of production.

Benefits:

- Ready to use and easy to weld.
- Provides up to 6 times the wear life of conventional wear plate.
- Supplied with notched backing for fitting to contoured surfaces.
- 700 Brinell hardness chrome moly white iron metallurgically bonded to mild steel provides levels of both abrasion and impact resistance.

Part #	Description	Mass (kg)
W121201157	240 x 40mm Wear Block	1.4
W121201158	241 x 50mm Wear Block	1.9
W121201159	242 x 65mm Wear Block	2.4
W121201156	60mm Wear Button	0.5
W121201218	75mm Wear Button	0.6
W121201433	90mm Wear Button	1.2
W121201434	115mm Wear Button	1.8
